Our one-piece molded-fiberglass raised roof features an integrated reverse flange design that looks better on the outside and seals tighter on the inside.

Using custom-crafted components, like die-stamped steel raised doors, we create a graceful flow from the original chassis that matches the fit and finish of the original factory vehicle.

Step wells custom designed for easy entrance and exit. Steel step plates are built to support the whole foot with consistent height and depth on the risers.

Passenger comfort is assured by built-in 22,000-BTU rear air conditioning system with 6 vents integrated into the headliner. Headliner also integrates recessed lighting for improved visibility.

Super-Premium Altro Floor and vacuum-molded ABS plastic wall covering create an interior that's leak proof, scratch resistant and practically indestructible.
